## Join us for our Fall Social Skills Groups!

- ❖ For children ages 3-10; Small group size
- ❖ Groups are designed for children with social-pragmatic difficulties related to autism, apraxia of speech, sensory processing difficulties, language delays, or other social difficulties
  - ❖ Sessions developed by a speech-language pathologist
- ❖ Groups led by a speech-language pathologist or another educator (teacher, OT, etc.)

### Overview

Our groups are designed to teach your child appropriate interactions with peers, while creating and maintaining meaningful friendships. Social skills are an integral part of a child's life - but do not easily come to everyone! Groups aim to teach children the tools they need to successfully navigate social situations. Our goal is that these skills will carry over into every day interactions.

### Skills Targeted

Our groups will focus on a combination of: communication/conversation, personal responsibility, empathy, emotions, engagement, problem solving, turn taking, gaining attention, personal space, etc. No group is the same, and we adapt each group based on the children and their specific strengths and weaknesses. *Our groups encompass the research based Social Thinking products, vocabulary, and skills designed by Michelle Garcia Winner.*

### Activities

All groups will have circle time, snack, sensory/movement, games/toys, arts and crafts, music, books, etc. Both structured and unstructured activities are included to facilitate spontaneous use of skills and carryover/maintenance.

### Collaboration

To best assist your child, we willingly communicate with parents, caregivers, teachers, and other professionals in your child's life. Updates are provided after each session, and a social skills inventory is provided for each child at the completion of the group.
